- c/w Ionizer, Adjustable motor speed and 7 colours changeable LED that can be switched on and off.
- Bowl Water Capacity: 1100ml
- Power Consumption: 16W
What is an ionizer?

It is a device which uses high voltage to ionize, or electrically charge molecules of air. These machines can be designed to either generate specifically charged ions (all positive or all negative), or to create both polarities.

Allergens such as dust, bacteria, mold, smoke etc are easily inhaled. These particles which are positively charged will be bonded (opposites attract) by negative ions produced by the ionizer. These particles which can be easily be inhaled then becomes too heavy to float around. Instead, they become larger pieces of dirt on the ground where they can be cleaned by normal means.

Studies have shown that natural surrounding such as mountains and waterfalls produce large amounts of negative ions. It is no coincidence that throughout history, mankind has gone to these places to rest and recuperate, particularly from respiratory diseases.

An ultrasonic humidifier is one that uses high-frequency sound vibrations to produce an extra fine water mist that is then expelled to add moisture to the room.

This type of humidifier is sometimes preferred because it is considered to be safer as there is no hot water present in the unit and therefore no risk of scalding. Since no heating is required in any way, it is also quieter to operate.
Ultrasonic Misting Device
With Humidifying Function
(Water + Aroma Concentrate / Antimicrobial)

Model J82
- 6 Changeable colours
- Water Capacity: 380ml
- Power Consumption: 10W

Ultrasonic Misting Device
With Humidifying Function
(Car/Desktop)
(Water + Aroma Concentrate / Antimicrobial)

Model J05
- 7 Changeable colours
- Water Capacity: 50ml
- Power Consumption: 2.5W
Recommendations for care

Fill water container with preferably distilled water or water with low mineral content such as reverse osmosis water to prevent build-up of scale.

Minerals in tap water may increase the development of crusty deposits, white micro-organism, such as bacteria and molds. Breathing mist containing these pollutants is detrimental to health.

Regular cleaning of the humidifier is very important preferably daily or at least every third day. Always switch off and unplug the unit from electrical socket. Empty the water container and use a soft brush or scrubber to remove any scale, deposits or film that has formed on the sides of the tank or on interior surfaces.
Wipe all surfaces dry, refill the water and add our Antimicrobial / Aroma Concentrate which is specifically formulated for use in humidifier to deter growth and neutralise microorganisms in the water container.

Since the water is not boiled to produce a mist, there is a risk of bacteria being present in the water (depending on the water source) and being discharged to the room.

Hence, it is recommended to change the water regularly and add our Antimicrobial / Aroma Concentrate to eliminate bacteria in the water.

Recommendations for use

It is important to use a humidifier when conditions require it, such as in a very dry environment where moisture is needed to relieve physical discomfort of dry nose, throat, lips and skin.
Reed Sticks Diffuser

Reed sticks diffuser is a room fragrancing product which works on the principle of capillary action.

The system consists of:

- Container made of porcelain or glass
- Aromatherapy fragrance/essential oil refills (refer to our list fragrances)
- Reed sticks

When the reed sticks which are porous and excellent for diffusion, are partially immersed in a container of fragrance oil, the scent travels up the reed sticks and gently permeates the room or office.

It is smokeless, flame-less and maintenance free, gaining popularity in recent years.
Instructions
• Simply pour aromatherapy fragrance/reed refills into the reed diffuser bottle or ceramic container.
• Replace old reed sticks with new ones especially when there is a change of refill scent.

Precautions
• Reed diffusers are meant to stand alone and be left untouched.
• Keep the diffuser high and out of reach of children.
• The refills contain essential oils which will stain wood surfaces.
• Always wipe the bottom of your diffuser clean before setting on any surface.
No smoke, drippy wax or the anxiety of burning candles. The aromatic oils are absorbed up through the ceramic charms and scents are released naturally, enhancing every moment of everyday with splendid fragrance that last for weeks. (Depending on your surroundings)
Enhance the decor of any space you like. Ceramic aroma diffuser is not only a fragrance diffuser and is also perfect as fragrance home decor. These wonderful diffusers are great for areas such as office, clothes / shoes cabinet etc.

**Directions**

1. Lift up the detachable ceramic figurine.
2. Pour the diffuser fragrance into ceramic vase.
3. Insert the ceramic figurine into the vase.

Please note: Always set the ceramic aroma diffuser on a level top and avoid painted surface or fabric furnishings. Any spills should be wiped up immediately to avoid staining.
Candle burners usually have an opening cut out at the sides to allow free flow of air for candle light which is placed inside. When using this kind of burner, it is necessary to take some precaution such as placing the burner away from curtain or combustible materials to avoid catching fire. Ample ventilation is also necessary, avoid using in an enclosed environment.

This kind of burners have been popular to create a delightful ambience in the home or workplace.
Electric Diffuser / Aromatic Lamp Diffuser

is particularly suitable for the home or workplace. They do not pose a fire risk as compared to the candle burner. Moreover it does not burn away oxygen* (in the case of candle burner) and can be used in bedrooms/offices without the need to open windows.

Directions

1 Fill half of the bowl / reservoir of the candle burner or electric diffuser with warm water.

2 Add or sprinkle 6 - 10 drops of Aromatherapy oil or more, if desired, into the warm water reservoir.

3 As the water heats, the Aromatherapy oil evaporates and fragrance the air.
(please refer to our list of fragrances)
**Electric vaporizer**

The electric vaporizer is particularly suitable for the home or workplace as they do not pose a fire risk as compared to candle burner. Moreover, it does not burn away oxygen*(in the case of candle burner) and can be used in bedrooms/offices without the need to open the windows.

**Colours Available**

- No Oily Hot Water
- No Naked Flame
- No Over Heating
- No Messy Candle Wax

Do not overfill the bowl as aromatherapy oil can cause damage or stain painted furnishings.

Any spills or drips should be wiped away immediately.

**Size:** 5.8(H) x 11.0 (W) cm

**Directions**

1. Simply plug into a standard electrical outlet and allow 15 minutes to reach full operating temperature. Self-regulating temperature of 70-80 degree C for subtle and effective vaporization.

2. Add or sprinkle 6-10 drops of your favourite aromatherapy oils or more if desired onto the recessed bowl. Do not add or use water for this model as the bowl is shallow.

3. As the vaporizer heats, the Aromatherapy oil evaporates and fragrance the air.
The car scenter offers a safe and convenient way to enjoy the delightful pleasures of pure essential oils while in the car. To ensure stress free driving, surround yourself with the aromatic aromas of pure essential oils.

Benefits

- Does not overheat
- Is easy to use
- Eliminates spillage
- Is safe to touch

Directions

1. Insert the oil pad
2. Add about 3 - 5 drops of Aromatherapy oil or more if desired into the oil pad.
3. Plug the car scenter into the car cigarette lighter outlet.
Tulip Aroma Diffuser

This elegant Tulip shaped car aroma diffuser comes with a separate USB interface for Car & PC usages providing you with nice & pleasant scent wherever you are. It comes in 5 beautiful colours to match your car interior with blue LED illumination while in operation. It is also intelligently designed as an emergency hammer that can be used to break car window during a crisis.

Features:

- Aromatherapy on the go
- Is easy to use
- Does not overheat
- Eliminates spillage
- Allows charging of external device while in use

Directions

Hold the top cover, loose and take off the cover by turning anti-clockwise.

Take out the round fragrance sponge.

Drip the aromatherapy oil (10 – 20 drops or more if desired) on the fragrance sponge until it moist completely.

Place the fragrance sponge back into the host.

Aim the cover at four notches of the rim to the host, and then rotate it clockwise until secured.

Plug the tulip aroma diffuser into the car cigarette lighter outlet and slide up the on/off button.
Aroma Diffuser / Ambience Scenting / Air Fragrancing Device

Model AC-66
Aroma Diffuser

4. Turn ON/OFF switch clockwise to activate or adjust the fragrance intensity

Attach the glass bottle to the base
Pour the aromatherapy oil into the glass bottle
Place the lid onto the glass bottle
Glass Aroma Diffuser

Where to use:

- Storeroom
- Office Space
- Home
- Hotel Areas
- Learning Institution
- Health Centre

Aromatherapy Oil

- 10ml
- 15ml
- 100ml
Our specially formulated water-based type produces foam that effectively traps dust and air pollutants. This kind of air purification method has been extremely popular in recent years.

It is a very safe way to experience the power of aromatherapy for all ages. The water air purifier/revitalizer purifies, moisturizes and aromatizes the environment. It is energy efficient and can be left running the whole day or night safely.
Sizes available:

- 30ml
- 100ml
- 120ml
- 250ml
- 1 litre
- 2 litres
- 5 litres
- 10 litres
- 25 litres

For use in Water Air Revitalizer

Our aroma essence are formulated from botanical extracts for their anti-bacterial, anti-fungal & deodorizing properties, with the addition of essentials oils for their therapeutic effects. Essentials oil has been known for treating a wide variety of common disorders discomforts & other ailments.

Benefits:

- Removes unfavourable odour & foul smell
- Eliminates airborne bacteria & germs
- Ease allergies caused by dust & air contaminant
- Effectively repels insect
- Aromatherapeutic effects to relieve stress & fatigue

- Nature's Best Gifts! We have the widest selection of scents to choose from.
- Our products are environmentally safe, non-toxic, non-pollutant, non-combustible, bio-degradable and alcohol free.
En  j oy  a  r elaxi n g,  s ti mulati n g  a nd  r efreshi n g bath / f oot spa with o ur Aroma Concentrates

For bath / foot spa, as air freshener or even room sprays.
For use in Humidifier / Revitalizer

A delightful and natural way to aromatize the room while providing adequate moisture into the atmosphere especially in very dry environment.

It is advisable to use our Aroma Concentrates specifically produced for this kind of humidifier/arsa diffuser.

The concentrates are foam-less and water based as oil based type is unsuitable and may cause damage to the appliance/equipment.

Bath

• Shower body with warm water

• Add 2-3 caps of Aroma Concentrate in a bucket/tub of warm water, wet entire body with it. Or mix 1 cap into water using standard (500ml) sprayer bottle, shaking thoroughly and spray all over the body.

• Leave it on for 15 - 20 seconds, rinse off and rub sea salt or lather body with any bath foam as usual feeling rejuvenated after this process.

Foot Spa

• Place a bucket of warm water with a tablespoon of salt and pour 2 - 3 caps of Aroma Concentrate.

• Pamper and soak you feet for 20 mins to enjoy the wonderful aroma. It is a simple yet important session to revitalize those tired feets.

As Air Freshener / Room Sprays

• Just mix 1 cap of Aroma Concentrate with water in any sprayer bottle and shake thoroughly.

• Spray and freshen the environment and bring nature into your living space.

The effect is less powerful as compared to water air purifier/ revitalizer or humidifier. However, some people prefer a less intense scent and may consider making your very own air freshener spray.

Precautions

• For external use only

• Avoid direct contact with eyes. In case of contact with eyes, rinse immediately with plenty of water.

• Keep out of reach of children
Aromatherapy massage is sensual a approach to heal our body and mind. It soothes away stress and strains of our lives.

Massage Oils

“Aromatherapy massage is sensual a approach to heal our body and mind. It soothes away stress and strains of our lives.”
When you are happy, your body's immune defenses are strengthened. On the other hand, if you are unhappy or sad, you are more susceptible to illnesses. This is the power of emotion.

Aromatherapy massage helps a person to relax and regain physical and emotional balances. Essential oils should not be applied to the skin undiluted with base oils.

This is why it is important for us to formulate specifically ready use type of massage oils with essential oil properties for use on skin. The skin, being semi-permeable can absorb the massage oils with particles of essential oil to achieve the therapeutic effects physically, emotionally and psychologically.

**Directions**

1. Pour small amount of massage oil on palm of your hands.
2. Rub your palms together and apply to body or feet for a relax and soothing massage.
3. It is non-drying and gentle on skin.

**Precautions**

- Keep out of reach of children.
- Avoid contact with eyes.
Harnessing the powers of aroma for health & well-being
Peace
Helps calm tensions and brings happiness to the mind.

Serenity
Bright and uplifting blend for bringing peace and nature into your living space.

Sweet Dreams
A mild delightful scent which helps you to unwind and promote a good night sleep.

Florals

Blue Rose
A spirited powdery floral scent of exceptional charm that surrounds and brightens your day

Orange Rose
A delicate scent that combines gentle citrusy and floral notes with subtle woody undertones to help bring comfort and inspire love
Suggested Aromatherapy Usages:

- For car scenter / diffuser use, drip oil onto the oil pad.
- For use on pillow, add a few drops of essential oils onto a couple of cotton balls and tuck them in both sides of your pillow just underneath the pillow case.
- For use in candle burner / electric vapourizer / aromatic lamp diffuser, add 6 - 10 drops or more if desired into the recessed bowl or containing warm water.
- For bath or foot bath, add a few drops of essential oils into bath tub of bucket containing warm water.
- For inhalation, add a few drops to a cotton ball, soft tissue, diffuser or small pot of hot water. Cover your head with a large towel, close your eyes, put your face above the water and inhale deeply. Repeat as required.
- For all other uses, carefully dilute with a carrier oil such as jojoba, almond oil or coconut oil prior to use. Please consult an essential oil book or other professional reference source for suggested dilution ratios.
Sizes available:

- 10ml
- 100ml

Warnings:

As with all essential oils, never use them undiluted, in eyes or mucous membranes. Do not take internally unless working with a qualified and expert practitioner. If applying an essential oil to your skin, always perform a small patch test to an insensitive part of the body (after you have properly diluted the oil an appropriate carrier).

Organic Eucalyptus Essential Oil (Eucalyptus Globulus)

Botanical Name - Eucalyptus Globulus
Aroma - Fresh, penetrating, woody, camphoraceous
Note classification - Top
Extraction - Steam distillation
Part of Plant - Leaves
Country of Origin - India
Ingredients - 100% pure & certified organic eucalyptus essential oil
Sizes available - 10 ml, 100 ml, 1, 2, 5, 10, 25 litres

Attributes:
Eucalyptus oil is an antiseptic and has a cooling effect on the body. It is helpful with fevers, migraine and works well for respiratory system and helps with coughs, asthma, throat infections and sinusitis conditions. It soothes inflammation and eases mucus, clearing the head due to colds and fever. It is also a warming oil that can be diluted with carrier oils and use for rheumatoid arthritis, sprains, muscular aches and pains.

Therapeutic Properties:
Analgesic, anti-bacterial, anti-inflammatory, anti-neuralgic, anti-rheumatic, antiseptic, antispasmodic, antiviral, astringent, balsamic, cicatrisant, decongestant, deodorant, depurative, diuretic, expectorant, febrifuge, hypoglycaemic, rubefacient, stimulant, vermifuge and vulnerary.

Suggested Aromatherapy Usages:
- For external use only.
- Keep out of reach of children.
- Keep away from flame. Store in a cool, dry place.
- Avoid direct contact with eyes and all sensitive areas.
- If pregnant or lactating, consult your healthcare practitioner before using.
- Natural essential oils are highly concentrated and should be used with care.
- Not for use with children under 3, or if using homeopathic medicines. Avoid with high blood pressure and in epilepsy.
Organic Ginger Essential Oil (Zingiber Officinale)

Botanical Name - Zingiber Officinale
Aroma - Warm and spicy with a deep earthy undertone
Note classification - Middle
Extraction - Steam distillation
Part of Plant - Rhizomes
Country of Origin - India
Ingredients - 100% pure & certified organic ginger essential oil
Sizes available - 10 ml, 100 ml, 1, 2, 5, 10, 25 litres

Attributes:

Ginger oil mix with carrier oil is ideal for massaging stiff muscles and joints as it brings circulation to the area and eases pain due to bruising, fractures, rheumatism, & arthritis. It is also warming and stimulating to the digestive system helping to combat colic, cramps, diarrhoea, hangovers, indigestion, nausea and motion sickness due to travelling. Alleviates respiratory system such as colds, flu coughs, sore throat, sinusitis and inflammation of mucous membranes.

Therapeutic Properties:

Analgesic, anti-emetic, antiseptic, antispasmodic, bactericidal, carminative, cephalic, expectorant, febrifuge, laxative, rubefacient, stimulant, stomachic, sudorific and tonic.

Precautions:

- For external use only.
- Keep out of reach of children.
- Keep away from flame. Store in a cool, dry place.
- Avoid direct contact with eyes and all sensitive areas,
- If pregnant or lactating, consult your healthcare practitioner before using.
- Natural essential oils are highly concentrated and should be used with care.
- Ginger oil is non-toxic but could irritate sensitive skins when used in high concentrations. May be slightly phototoxic. Avoid direct sun after using on the skin.
Organic Juniper Berry Essential Oil (Juniperus Communis)

Botanical Name - Juniperus Communis
Aroma - Clean, fresh and herbal
Note classification - Middle
Extraction - Steam distillation
Part of Plant - Berries
Country of Origin - Nepal
Ingredients - 100% pure & certified organic juniper berry essential oil
Sizes available - 10 ml, 100 ml, 1, 2, 5, 10, 25 litres

Attributes:
Juniper oil can help balance and strengthen the nervous system and relieves mental exhaustion and anxiety. It helps to regulate menstrual cycle, relieves painful period and pain associated with arthritis, gout and rheumatism.

Therapeutic Properties:
Antiseptic, anti-rheumatic, antispasmodic, astringent, carminative, depurative, diuretic, rubefacient, stimulating, stomachic, sudorific, vulnerary and tonic.

Precautions:
- For external use only.
- Keep out of reach of children.
- Keep away from flame. Store in a cool, dry place.
- Avoid direct contact with eyes and all sensitive areas,
- Natural essential oils are highly concentrated and should be used with care.
- Avoid if pregnant or lactating, consult your healthcare practitioner before using.
Organic Lavender Essential Oil (Lavandula Angustifolia)

Botanical Name - Lavandula Angustifolia
Aroma - Refreshing and floral
Extraction - Steam distillation
Note classification - Top
Part of Plant - Flowering tops
Country of Origin - Bulgaria
Ingredients - 100% pure & certified organic lavender essential oil
Sizes available - 10 ml, 100 ml, 1, 2, 5, 10, 25 litres

History:
It was Rene-Maurice Gattefosse who observed the healing effects of lavender oil when he burnt his hand in a laboratory accident, and it is still used today for burns including in hospitals, for its pain relieving, antiseptic & skin healing properties.

Attributes:
Lavender oil is a very popular oil known for its relaxing and soothing effect on the nerves, calming depression, hysteria, relieving tension, panic and nervous exhaustion. It combats headaches, migraines and insomnia. It is helpful for asthma, laryngitis, bronchitis, colds, whooping cough, throat infections and helps the digestive system deal with flatulence, vomiting, colic and nausea. It also relieves pain when used for arthritis, rheumatism, lumbago and muscular aches and pains. Lavender oil can also be used as an insect repellent.

Therapeutic Properties:
Lavandula comes from the Latin word lavare, meaning, "to wash", which is particularly appropriate because Lavender is so deeply cleansing in so many ways. It is antiseptic, analgesic, anti-convulsant, anti-depressant, anti-rheumatic, anti-spasmodic, anti-inflammatory, antiviral, bactericide, carminative, cholagogue, cicatrisant, cordial, cytophylactic, decongestant, deodorant, diuretic, emmenagogue, hypotensive, nerve, rubefacient, sedative, sudorific and vulnerary.

Precautions:
● For external use only.
● Keep out of reach of children.
● Keep away from flame. Store in a cool, dry place.
● Avoid direct contact with eyes and all sensitive areas,
● If pregnant or lactating, consult your healthcare practitioner before using.
● Natural essential oils are highly concentrated and should be used with care.
Organic Lemon Essential Oil (Citrus Lemon)

Botanical Name - Citrus Lemon
Storage - Store in a cool area to maintain optimum freshness
Aroma - Fresh, clean, and sharp citrus
Note classification - Top
Extraction - Cold expression
Part of Plant - Peel
Country of Origin - Italy / Mexico
Ingredients - 100% pure & certified organic lemon essential oil
Sizes available - 10 ml, 100 ml, 1, 2, 5, 10, 25 litres

Attributes:

- Keep out of reach of children.
- Keep away from flame. Store in a cool, dry place.
- Avoid direct contact with eyes and all sensitive areas,
- If pregnant or lactating, consult your healthcare practitioner before using.
- Natural essential oils are highly concentrated and should be used with care.
- Possible skin irritant in high concentrations.
- **Tea tree oil is considered a safe oil, as it in non-toxic and non-irritant, but may cause skin sensitization to some individuals, and it should be used with this in mind.**
Organic German Chamomile Essential Oil (Matricaria Chamomilla)

Botanical Name - Matricaria Chamomilla

Aroma - Strong & warm herbaceous

Note classification - Middle

Extraction - Steam distillation

Part of Plant - Flower Head

Country of Origin - Germany

Ingredients: 100% pure & certified German chamomile essential oil

Sizes available: 10 ml, 100 ml, 1, 2, 5, 10, 25 litres

Attributes:

Chamomile is a powerful calming oil that is relaxing, antidepressant, antiseptic, soothes and cools the skin. It is very anti-inflammatory and helps aid skin healing. Particularly useful for sensitive, allergic or dry skins.

Therapeutic Properties:

The therapeutic properties of chamomile are analgesic, anti-allergenic, anti-spasmodic, antibiotic, anti-inflammatory, antiphlogistic, bactericidal, carminative, cicatrisant, cholagogue, emmenagogue, hepatic, digestive, sedative, stomachic, vermifuge, vasoconstrictor and vulnerary.

Precautions:

- For external use only.
- Keep out of reach of children.
- Keep away from flame. Store in a cool, dry place.
- Avoid direct contact with eyes and all sensitive areas.
- Natural essential oils are highly concentrated and should be used with care.
- Non-toxic and non-irritant. Avoid during pregnancy.
Coconut oil can be used directly for massage. It is great for softening, nourishing the skin and locking in moisture and is known as one of nature's best remedies for treating dry, flaking skin leaving it to feel silky smooth.

It gives a lovely consistency in balms and creams for the face or body and is also great in hair care. Those with dry hair or split ends can massage it directly into the hair as conditioning treatment, leave for an hour or overnight if possible, then wash out.

**Coconut Oil Deodorised (Cocos Nucifera)**

**Botanical Name -** Coco Nucifera

**Aroma -** Odourless, this oil has been deodorised for those who do want the distinctive coconut smell

**Method of extraction -** Cold pressed, refined.

**Country of Origin -** Malaysia

**Attributes:**

Coconut oil can be used directly for massage. It is great for softening, nourishing the skin and locking in moisture and is known as one of nature's best remedies for treating dry, flaking skin leaving it to feel silky smooth.

It gives a lovely consistency in balms and creams for the face or body and is also great in hair care. Those with dry hair or split ends can massage it directly into the hair as conditioning treatment, leave for an hour or overnight if possible, then wash out.

**Cautions -** Keep out of reach of children. For external use only. Do not ingest. Keep out of eyes.

**Ingredients -** Pure Coconut oil.

**Sizes available -** 120 ml, 250 ml, 1, 2, 5, 10, 25 litres
Jojoba Oil (Simmondsia Chinensis)

Botanical Name - Simmondsia Chinensis
Aroma - Mild, almost odourless
Extraction Method - Cold Pressed
Country of Origin - Israel

Attributes:

Jojoba Oil (pronounced ho-ho-ba) is a lovely massage and skincare oil that is actually a liquid plant wax, Jojoba is very close to the skin's own natural sebum, making it very well absorbed.

It is rich in nutrients such as Vitamin E and B, antioxidants and essential fatty acids that work together to help repair damaged skin cells, fight premature ageing and provide long lasting moisture and hydration, for the skin.

It penetrates the skin rapidly leaving a soft non-sticky feel. It is especially protective and is therefore useful for anyone who works outdoors or is exposed to pollution. It is also nice as an ingredient of baby care products and is lovely addition to cleansers, due to its natural emulsifying properties.

Jojoba is wonderful to use as a conditioner as it nourishes and protects dry and treated hair, but washes out well and does not leave the hair greasy or lank.

Cautions - Keep out of reach of children. For external use only. Do not ingest. Keep out of eyes.

Ingredients - Pure Jojoba oil
Sizes available - 120 ml, 250 ml, 1, 2, 5, 10, 25 litres
Sweet Almond Oil (Prunus amygdalus dulcis)

Botanical Name - Prunus amygdalus dulcis
Aroma - Delicate, sweet and slightly nutty.
Method of extraction - Cold pressed, refined.
Country of Origin - Spain

Attributes:
Sweet Almond oil is excellent for massage. It is an excellent emollient (softening and soothing to the skin) and also helps the skin to balance its loss and absorption of moisture.

Rich in vitamins and essential fatty acids, Sweet Almond oil also makes a nutritious moisturiser for all skin types, and makes a wonderful make-up remover.

Sweet almond oil also contains vitamins A, B1, B2, B6 with small amounts of Vitamin E and D. Due to the presence of vitamin E the oil has antioxidant capability. Antioxidants protect vital cell structures by neutralizing free radicals

It has light to medium consistency which does not leave the skin feeling oily or sticky, making it ideal as an all-purpose base oil. Suitable for all skin types, Almond Oil is light and easily absorbed into the skin, making it fantastic for soothing dry, chapped and irritated skin.

Cautions - Keep out of reach of children. For external use only. Do not ingest. Keep out of eyes.

Ingredients - Pure Coconut oil.

Sizes available - 120 ml, 250 ml, 1, 2, 5, 10, 25 litres
Anti-viral anti-bacterial and anti-fungal efficacy testing were carried out by qualified independent laboratories and the product is registered with United States Environmental Protection Agency. It is highly effective against viruses, bacteria and fungus.

It has vast application capabilities which include water purification process, disinfectant and as an approved cleaner for food contact surfaces by NSF International Certification. It is also suitable for use in water air purifier / revitalizer together with Pure™ Aroma Essence for creating healthier, cleaner and pleasant air at home and workplace.

Pure™ Antimicrobial Concentrate is a disinfectant and deodorizer proven to kill bacteria, fungus and viruses.

It can be used on non-porous environment hard surfaces, in home, hospitals, nursing home, medical and dental clinics, laboratories, ambulance and patient transfer vehicles, funeral homes, hotels, restaurants, schools, day care centres, offices, veterinary clinics, animal shelters, exercise facilities, beauty and hair salons, trains buses and other public transportation vehicles, locker rooms, kitchens and restrooms, etc.
We cater both original (odourless) and scented type. If your preference is scented, please indicate your choice of scent when placing an order.

**Sizes available:**
- 60 ml
- 250 ml
- 500 ml
- 1 litre
- 2 litres
- 5 litres
- 10 litres
- 25 litres

**Benefits**
- Kills harmful bacteria and viruses within 10 seconds
- Removes odour, mold and mildew
- Non-irritation to skin and safe to human
- Product is environmentally friendly
- 100% Biodegradable, alcohol free and non-flammable
- Eliminates 99.9% of bacteria and viruses (H1N1/ MRSA / Norovirus / E-Coli / Salmonella enterica / Staphylococcus aureas / Legionella pneumophila / Aspergillus niger)
Usage of Pure™ Antimicrobial Concentrate

In water air revitalizer (Diluted Application)
To be used together with Pure™ Aroma essences for promotion better air quality.
- Fill air revitalizer bowl with 1500ml of clean water or slightly above mid-level.
- After adding Pure™ Aroma essence into water, squeeze 1-2 squirts or approximately 10ml of Antimicrobial Concentrate.
- Replace air revitalizer cover and switch on power supply.

For General Cleaning (Diluted Application)
- Add 2 - 3 squirts of Antimicrobial Concentrate per litre of water and clean area and surface with sponge, mop or cloth.

To Disinfect Hard Surfaces (Concentrated Applications)
- Apply full strength to surface, wetting thoroughly with spray sponge and mop by immersion in Antimicrobial Concentrate.
- Allow surfaces to remain wet for 10 minutes.

As An Odour Eliminator / Prevention of Mold and Mildew (Concentrated Application)
- The Antimicrobial Concentrate must come into direct contact with offending odour and use it undiluted. After treatment, we highly recommend using our Pure Aroma Essence to enjoy better air quality and experience the holistic practice of Aromatherapy.
- Pure™ antimicrobial Concentrate is safe to use around children. Use to disinfect children's toys, playpens, playhouse, diaper changing tables, strollers, cribs, child car seats, play tables, etc.
- Eliminating bacteria, viruses and fungus can involve strong chemicals that can trigger health problems, but our Antimicrobial Concentrate controls mold and bacteria by oxidizing it instead of bleaching it. It is so mild, you can wash your hands in it but it is tough on bacteria, viruses, fungus thereby providing a safer living environment.

Active ingredient: Stabilized Chlorine Dioxide
Some Useful Tips To Remove Odours

**Odours from Home / Office Air Conditioning System**
Fungal spores and bacteria thrive in moist surfaces and when released into the air, these micro-organisms trigger allergies, cause illnesses and produce odours. Pure Antimicrobial Concentrate is highly effective in eliminating bacterial and fungal organisms found in air conditioners.

- Switch off electrical supply to air-con at main socket
- Remove air-con filter and wash away dust and dirt
- Spray Antimicrobial Concentrate directly on cooling fins until wet but avoid spraying at or near electrical circuitry
- Wipe off excess moisture flowing down the cooling fins
- Replace cleaned filter into air-con and switch on the air-con

It is recommended to perform the above at least once a month. During the quarterly servicing of your air-cons, you may hand the Antimicrobial Concentrate to the servicemen for thorough disinfection of all vents, cooling fins and pipes or air ducts of the air-con system.

**Carpet / Curtain / Fabric Odours**
- Spray / wet and brush area with Antimicrobial Concentrate. This includes underneath or behind
- Allow to dry
- If odour persists, repeat the above procedure.

For liquid spills etc, use Antimicrobial Concentrate together with carpet or upholstery shampoo.

**Odours On Floors**
- Squeeze 3 - 4 squirts of Antimicrobial into bucket containing water together with floor cleaning solution.
- Mop or wipe as usual and you will be pleasantly surprised with the results.

**Pets Odours**
- Spray Antimicrobial Concentrate directly onto pet bedding or holding cages.
- Brush into surface and reapply if necessary.
- Pat dry with a cloth or sponge and let air dry.
Pure Antimicrobial Concentrate can remove most common kitchen odours, even the foul odours of garbage disposals and drains.

- To treat sinks, fill basin with 1/4 full with hot water.
- Add 1 squirt of Pure™ Aroma Essence (any scent) together with approximately 100ml of Antimicrobial Concentrate.
- Stir and mix well, then release Antimicrobial into the drain.
- When basin is empty, run cold water down the drain for 20 seconds and then spray Antimicrobial Concentrate into the drain.

Kitchen Odours and As Kitchen Disinfectant

Pure™ Antimicrobial Concentrate can remove most common kitchen odours, even the foul odours of garbage disposals and drains.

- To treat sinks, fill basin with 1/4 full with hot water.
- Add 1 squirt of Pure™ Aroma Essence (any scent) together with approximately 100ml of Antimicrobial Concentrate.
- Stir and mix well, then release Antimicrobial into the drain.
- When basin is empty, run cold water down the drain for 20 seconds and then spray Antimicrobial Concentrate into the drain.

Odours From Car Air Conditioning Units

- Stop the engine and spray 2 - 3 trigger sprays into the drain for 30 seconds and then spray Antimicrobial Concentrate into the drain.
- Start the vehicle engine and turn the fan on high cool.
- Spray 10 - 20 times into the outside fresh air intake vent (located under the cowl at the base of the windshield).
- Let vehicle run for 2 - 3 minutes.
- Wipe off any excess moisture coming out of the dashboard vents.
- With windows closed, turn your air-con system to Max air or recirculation.
- Spray 5 - 10 times into the air in general, close vehicle doors and let it run for 4 - 6 minutes.

This should leave your vehicle not only odourless but most importantly free from harmful bacteria. To enjoy fresh and beautiful scent, you may use our Car Revitalizer together with Pure™ Range of Aroma Essences.

Other Uses

- Bathroom/ toilet cleaner, while travelling, carry Antimicrobial Concentrate in a handy spray bottle as a disinfectant to sanitize and prevent contact diseases.
- Also effective in removing odours in shoes and shoe cabinets by simply spraying and let air dry. The Antimicrobial Concentrate eliminates germs (i.e. source of odour) found in shoes.
C l e a n s e ,  M o i s t u r i z e  &  R e f r e s h  Y o u r  P r e c i o u s  S k i n.

PURE™ Aromatherapy handmade soap enables you to absorb essential oils through your skin and nourishing it. Aromatherapy has been known to have calming and soothing effects. Thus, aromatherapy soaps will greatly bring a calming and relaxing effect to your body, mind and spirit.

F i l l  w i t h  v e g e t a b l e  g l y c e r i n  a n d  b o t a n i c a l  i n g r e d i e n t s  t o  p a m p e r  &  n o u r i s h  t h e  s k i n
In contrast to popular belief, aromatherapy soaps don't just offer a pleasing scent. Aromatherapy bath soaps offer many advantages other than fragrances. These soaps provide more health benefits than people realize. Turning your everyday bathing and skincare rituals into a spa-like experience that nurture the body, mind & spirit.

Soaps made of aromatherapy ingredients are ideal for any skin types. Our Aromatherapy soaps filled with vegetable glycerin and botanical extracts are in fact effective moisturizers for dry and sensitive skin. These soaps are also great for people with oily skin as they clean and unclog blocked pores, which cause the oiliness of the skin.

Using aromatherapy soaps helps reduce stress levels and puts a person in a positive and relaxed state of mind. Thus, it's recommended that you take advantage of the psychological benefits of aromatherapy soaps.

**Ingredients**
Glycerin, Sorbitol, Sucrose, Sodium Chloride, Sodium Palmate, Sodium Palm Kernelate, Aqua, Propylene Glycol, Sodium Laureth Sulfate, Sodium Citrate, Botanical Extracts, Essential Oils.

* Store in cool dry place away from heat and direct sunlight

**Fragrances available:**
- Lavender
- Lemongrass

- Peppermint
- Tea Tree

Approximately 80g
Do you suffer from excessive vaginal discharges, disturbing itchiness and embarrassing odours?

Vaginal discharge is a common phenomenon among women, causing discomfort and low self-esteem due itchiness or burning sensation, odours and staining of underwear.

Mankakani Feminine Wash

Specially formulated to cleanse woman's intimate area & regain youthfulness
Our Manjakani feminine wash fulfils a woman's need for freshness and hygiene.

The antiseptic properties of our Manjakani feminine wash helps to eliminate minor yeast and bacterial infection and to control excessive vaginal secretions. These 3 problems are the most common causes of itch, odours and discomfort experienced by women. Unlike washes or spray which simply mask unpleasant smells with perfume, the Manjakani feminine wash actually work on the root causes. Its pleasing scent also gives you a feeling of lasting freshness.

Benefits

- Pleasant scent for confidence and freshness.
- Eliminates excessive discharge and itching.
- Helps tighten and strengthen the uterine walls.
- Reduces symptoms of leucorrhoea and unpleasant odours, even during menstrual flow.
- Restoring your inner beauty.

Directions

- Pour liquid onto wet palm. Apply and wash intimate area for approximately 20 seconds.
- Rinse thoroughly and towel dry.
- Helps tighten and strengthen the uterine walls.
- Reduces symptoms of leucorrhoea and unpleasant odours, even during menstrual flow.
- Restoring your inner beauty.

200ml / 6.5 FLOZ
{ Multipurpose Aromatherapy Spray }

Live in a happy & clean environment
(Air Freshener, Glass Cleaner, Table Cleaner and Fabric Deodorizer)
Our multipurpose aromatherapy spray is an excellent cleaner and air freshener spray for everyday use. It removes unpleasant odours and is ideal for the following usages:

**Directions**

**As a general cleaner**
Spray onto the intended surface (dining table, countertops, mirror, etc.), wipe clean and let dry

**For refreshing air**
Spray a fine mist towards the ceiling and avoid contact with the eyes

**To deodorize soft furnishings**
Spray sparingly onto curtains, carpet or couches and air dry

Product is environmentally safe, non toxic, non-flammable and bio-degradable
It is also an air freshener spray which freshens the air with pleasant scent.

Fragrances available:

For refreshing the air at home, offices restroom or in the car. You can easily spray a fine mist towards the ceiling and refresh the environment.

- Citronella
- Lavender
- Orange
- Pandan
- Rose
- Orchid
- Lemongrass

200ml / 6.5 FL.OZ
The wooden cover functions as a wick which allows the aroma oil to diffuse into the air subtly. Extreme conditions may induce excessive volatility of the aroma oil thus shortening the scenting duration of this Wooden Aroma Diffuser.
Neutralize unpleasant odours and provide a delightful scent to the air of smaller indoor spaces such as:

- Desktop
- Wardrobe
- In the car
- Bathroom
- Shoe cabinet
- Storeroom

**Usage Guide**

1. Unscrew the wooden cover and remove the stopper in the bottle; screw back the cover tightly.

2. Flip over the bottle for 3-5 seconds for the wooden cover to absorb the aroma oil. (Repeat No.2 process once per week or when needed for the extra intensity of fragrance.)

3. Secure and tie the string around the rod of pole of bathroom fittings / wardrobe. For desktop, simply placed bottle in an upright position after inverting it.

**Caution**

Please do not fiddle with this wooden Aroma Diffuser while driving for safety.

Avoid contact of Aroma oil with any painted/plastic surface or fabric to avoid staining.

Flammable product, do not light and keep away from open flame.

Keep away from children and pets.
Fragrances Available:

- **Apricot Peach**
  - Heavenly scent which is pleasing, delightful & all time favourite deodorizer

- **Citronella**
  - Repels mosquitoes and insects

- **Creative Wednesday**

Discover an exciting trend of air scenting, ambience enhancement & brand marketing!

Studies have shown that humans greatly prefer spaces that smell good. The atmosphere in just about any interior space, of any size, can be enhanced with a subtle, expertly created scent and fresher air to breathe.

Every aspect of a physical facility should be designed to ensure people have a memorable and positive experience while inside. Sense of smell is the only sense which directly linked to the Limbic System, the part of the human brain where emotions are created and memories are stored. And therefore, aroma creates and reinforces an emotional connection that visitors will recall and be influenced.

The use of aroma extends to the brand image is a powerful tool for sophisticated marketers, deepening and extending the brand position. Our clients have found that aroma becomes the most powerful and memorable part of the customer experience with their brands. Aroma and refreshing air can help people to positively recall a brand or a place, and it can be used to communicate brand values.
There are plenty of names for it but it is quite simply a diffusing equipment which produces a fine spray of Aroma concentrate into the air which is programmable and allows you to set the working durations (time and day) according to your preference. It also allows you to decide on the level of aroma intensity.

- **Power Consumption**: 3W
- **Dimension**: (L) 18.8cm x (W) 6.8cm x (H) 21.3cm
- **Coverage**: 300 - 500 sqft
- **Weight**: 500g (stand alone or can easily mounted onto the wall)
- **Adjustable days of operations**
- **PET plastic bottle capacity**: 200ml
The Aroma Nebulizer is particularly suitable for the home or workplace as they do not pose a fire risk as compared to candle burner. Moreover, it does not burn away oxygen* (in the case of candle burner) and can be used in bedrooms/offices without the need to open windows.

1. **Add our Aroma Concentrate (extra strong) into the PET Plastic Bottle**

2. **Screw on the PET Plastic Bottle (by turning anti-clockwise vertically) onto the nebulizer**

3. **Connect the power**

4. **Synchronize nebulizer time to the current local time in 24-hour format. Set desired timing on and off.**
